WHO WE ARE **BIODIESEL** M A G A Z I N E

Biodiesel Magazine is a trade journal dedicated to objective, independent coverage of biodiesel, renewable diesel and sustainable aviation fuel (SAF) production, news and information vital to the industry.

With an editorial focus on U.S. and international manufacturing, trade, distribution, markets, use and feedstock, *Biodiesel Magazine* has provided valuable insight into this growing segment of the renewable fuels industry for more than 20 years.

Since 2004, *Biodiesel Magazine* has thoroughly covered the biodiesel sector from its fledgling industrial roots in a recalcitrant market to full-scale commercialization and mainstream acceptance. In the midst of a swiftly evolving energy landscape focused on green fuels and decarbonization, *Biodiesel Magazine* has incorporated the exciting and fast-growing renewable diesel and SAF sectors into its online and print coverage.

From in-depth feature articles written by our editorial staff to technical contributions from respected industry stakeholders, *Biodiesel Magazine* is the most trusted and relied upon trade journal in this field—valued for its accuracy, subject matter knowledge and ability to dive deep into the important, timely issues facing biodiesel producers and distributors.

MULTICHANNEL MARKETING

WHO WE REACH

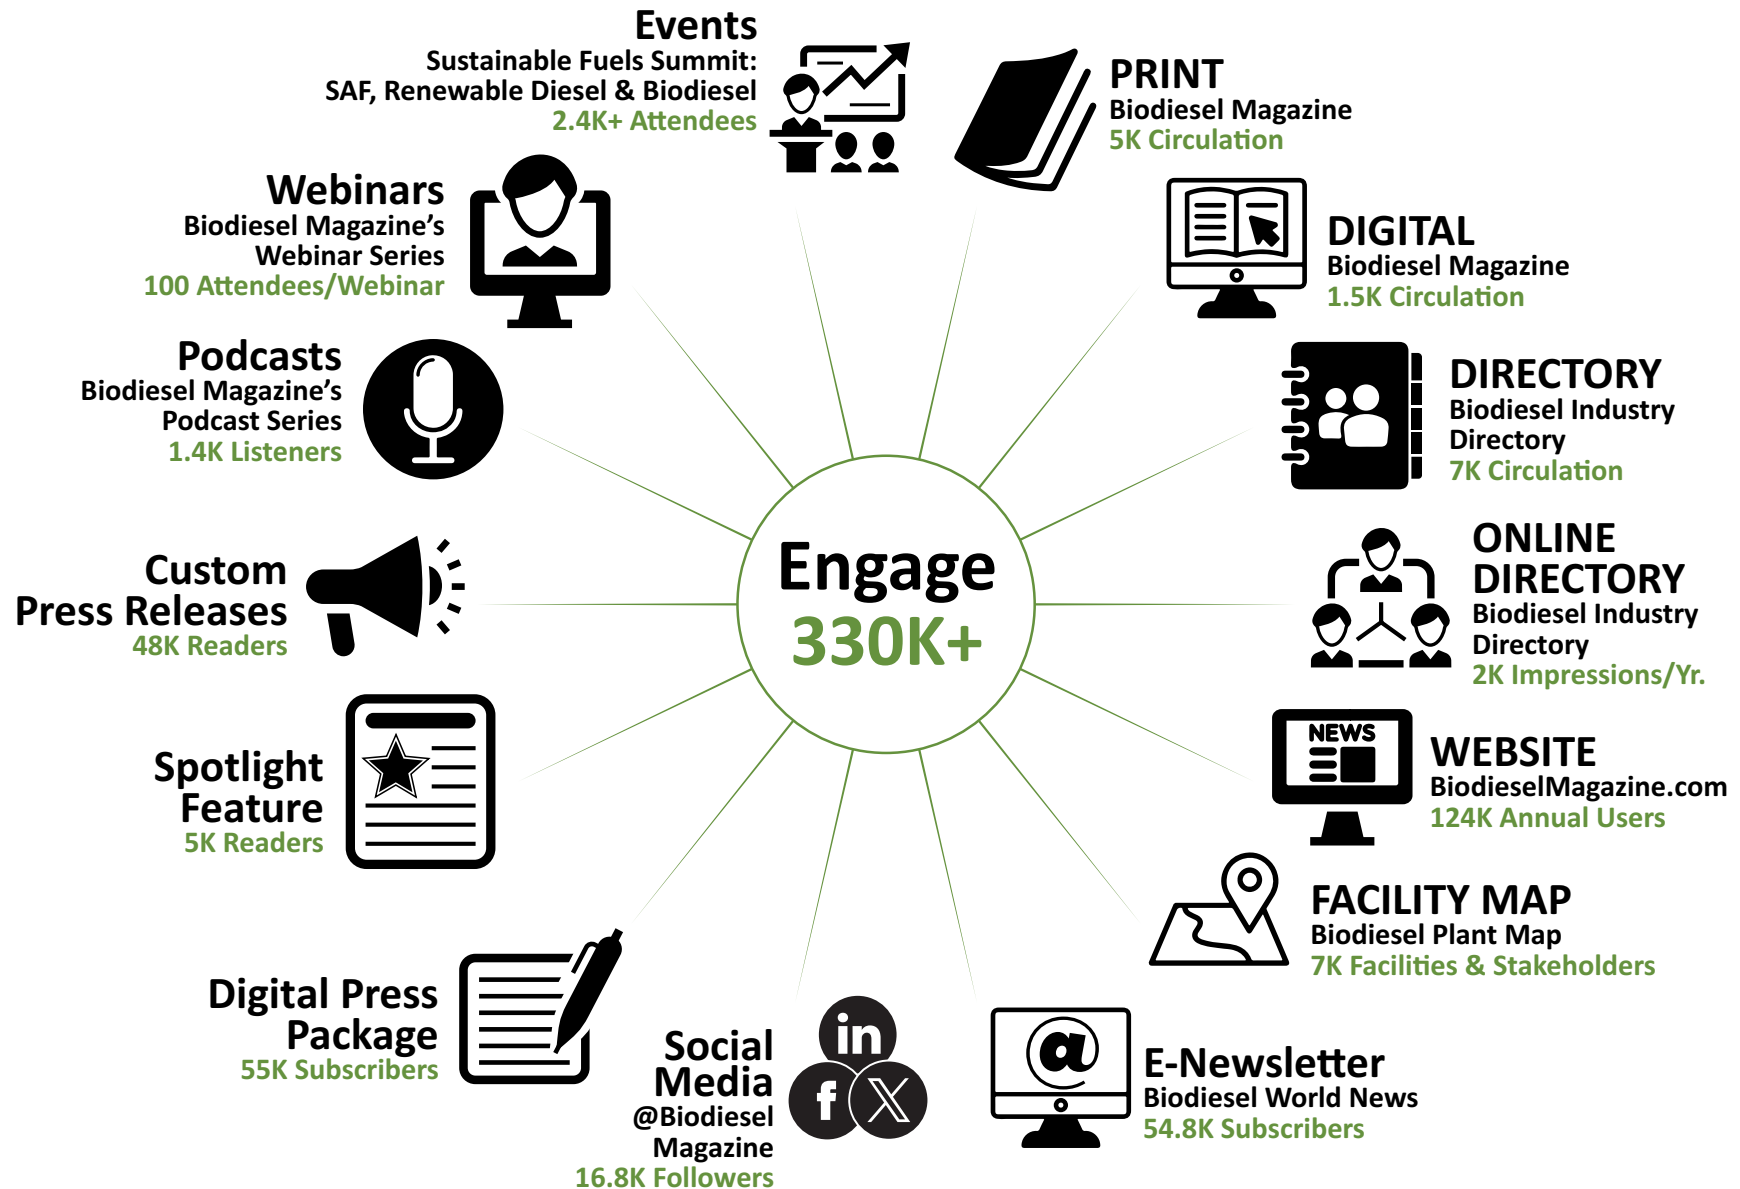

Why B2B Multichannel Marketing is Important:

Broader Reach: Engages audience across various platforms, increasing visibility.

Targeted Messaging: Delivers personalized content to your audience, enhancing relevance.

Increased Engagement: Encourages interaction through multiple channels, fostering deeper connections.

Brand Consistency: Ensures a unified brand message across all channels, strengthening brand identity

TOP COMPANIES RELY ON BIODIESEL MAGAZINE TO REACH KEY INDUSTRY DECISION-MAKERS

Connected energy.

Feedstocks cultivated in the heartland are meeting the demand for clean fuels and connecting our nation to cleaner energy. Now.

Clean Fuels
ALLIANCE AMERICA

The benefits keep growing.
cleanfuels.org

The world demands biofuel.
Supply It.

Secure your competitive advantage with CPM | Crown's continuous process Liquids Pilot Plant.

Innovate and optimize your oils and fats processing by partnering with Crown. Our Global Innovation Center and first-of-its-kind Liquids Pilot Plant offer renewable fuel (renewable diesel/ HVO, SAF and biodiesel pretreatment), edible oil and oleochemical companies access to a continuous process for testing, validating, scaling and commercializing any feedstock into high-value products. The Liquids Pilot Plant is backed by Crown's unmatched expertise, technology and Lifecycle360™ single-source support services. Conduct real-world testing on traditional oilseeds, emerging oilseeds and waste oils in a confidential, risk-free environment.

Lead the liquids processing industry with total confidence in your investment.

TONSIL™

**Purify all your feedstocks
Remove impurities
Safeguard your catalyst**

TONSIL™ your solution for oils, fats, and renewable fuels. Enhance your refining process with state-of-the-art purification, targeted impurity removal, while safeguarding your catalyst for advanced protection and optimal efficiency in your operations.

QR code

**How to overcome HVO feedstock challenges?
Try Purifine® PLA1 – also for carinata oil**

Traditional refining methods can be ineffective when it comes to challenging feedstocks like carinata oil in HVO production. That's why we created Purifine® PLA1 – a proven enzyme that enables physical refining of various vegetable seed oils to meet strict phosphorus and metal specifications.

Purifine® PLA1 reduces chemical usage and oil loss in the refining process, resulting in a more efficient and cost-effective solution. Don't miss out on this opportunity to improve your HVO production process. Contact us to learn more.

Biodiesel Magazine

PUBLICATION INFORMATION

Publication (Trim) Size: 8.5" x 10.875" (Live Area: 8" x 10.375")
 Paper Stock: 70-lb. gloss-coated guts, 80-lb. gloss-coated cover
 Method of Printing: Web press, 150 lpi, process color
 Binding: Saddle-Stitched Applications: Publication is created in Adobe InDesign. PC files.

Ad Placement: Apart from Premium Ads, vertical ads are placed at the outside edge, horizontal ads are placed at the bottom of pages.

Proofs: We do not supply proofs (unless we create the ads)

Storage of Advertisement: 24 months

ARTWORK SPECS

Color: CMYK/process colors only. **NO SPOT COLORS.**

All spot colors must be converted to CMYK. Color quality is not guaranteed if spot colors are used. No built-in black type.

Fonts: Outline or embed all fonts in the PDF

File Format: High-Res PDF

Resolution: Materials must be 300 dpi; submitted at 100% size.

Bleed: Refer to SIZES for the different bleed-size ads. A 1/4" bleed is required for each side that bleeds. **PLEASE CHECK THE LIVE AREA.**

Live Area: To prevent info being trimmed off, all text, logos, etc., must be 1/2" in from the edge of the ad. Registration marks preferred.

PDF Files: Save with all fonts and images embedded. Save without color profiles. Once PDF is created, please check the bleed – see "Sizes" for BLEED specifications. If submitted artwork does not meet specifications a new file will be requested.

Color Profiles: Whenever possible – do not embed or include color profiles.

CREATING ARTWORK

In-house Production: *Biodiesel Magazine* will create advertisements for clients (3 digital proofs for free, a fee will be charged for additional proofs needed). The advertiser must submit ad copy, plus high-resolution logos and photos. Photos may be purchased for advertisement, but at the client's expense. Submission of materials should be completed at least one month in advance of print run. Call for applicable production fees.

Submitting Artwork

artwork@bbiinternational.com
 866-746-8385 for assistance

REGULATIONS

Agency Discounts: Due to the affordable rates offered by *Biodiesel Magazine*, we do not offer agency discounts.

Invoices: Rendered at time of issue mailing.

Short Rates/Rebates: Advertisers will be short-rated if, within 12 months from the date of the first insertion, they do not use the amount of space upon which their billings have been based. Rates may be adjusted (lowered) during the course of an advertiser's insertion order agreement, if the advertiser has used sufficient additional space to warrant a lower rate than that at which their billing began.

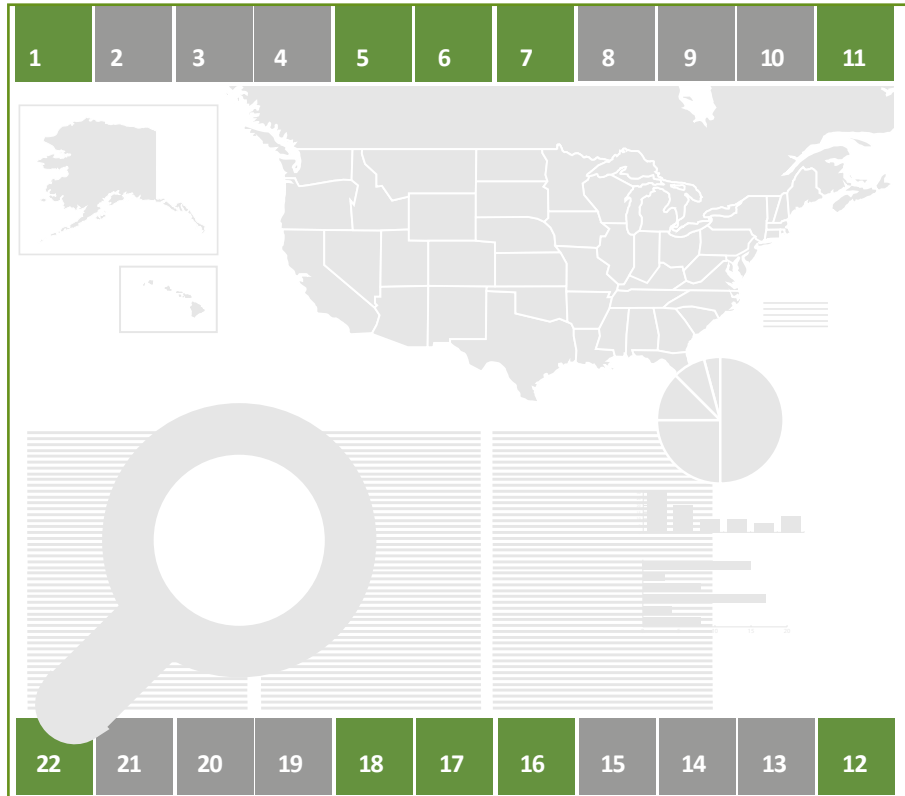

Rate Protection: Rates are effective for all advertisers throughout the duration of this media kit. Rates will never increase during the term of an advertiser's billing agreement, unless the advertiser chooses to change the plan by, for example, increasing the size of an ad.

Publisher's Protective Clauses: Deliberate attempts to simulate editorial format in an advertisement is not permitted by *Biodiesel Magazine*. The publisher reserves the right to insert the word "advertisement" when, in the publisher's opinion, an advertisement resembles editorial material. Liability for all content of advertisements printed (including text, representations, illustrations or any sketch, map, label, trademark or other copyrighted matter) will be assumed by advertisers and their agencies. The publisher reserves the right to reject any advertising that does not conform to publication standards. *Biodiesel Magazine* is not liable for delays in delivery and/or non-delivery in the event of an Act of God, action by any governmental or quasi-governmental entity, fire, flood, insurrection, riot, explosion, embargo, strikes whether legal or illegal, labor or material shortage, transportation interruption of any kind, work slowdown, or any condition beyond the control of the publisher affecting production or delivery in any manner. *Biodiesel Magazine* is not responsible for quality of reproduction when materials received do not conform to specifications or when materials are received beyond closing date.

Cancellations: No cancellations will be accepted after closing dates. Notification of cancellations prior to closing date should be in writing (email or fax acceptable).

Method of Distribution: U.S. Postal Service-Periodical

Subscription Prices: Subscriptions to *Biodiesel Magazine* are now free of charge to everyone with the exception of a shipping and handling fee for any country outside the United States. Subscriptions are available online at www.BiodieselMagazine.com. Please contact our subscriptions department for subscription assistance at (866) 746-8385 or service@bbiinternational.com

Premium Positions indicated in Green

Sent to 5,000+ Producers & Biofuels Professionals

Biodiesel Magazine's 2027 U.S. & Canada Biodiesel and Renewable Diesel/SAF Plant Map identifies existing and under construction biodiesel, renewable diesel and sustainable aviation fuel plants. Production facilities are conveniently color-coded by status for quick reference. Listings include plant name, city, state, size (installed capacity in millions of gallons per year, MMgy, for U.S. plants, and millions of liters per year, MMly, for Canadian plants), and feedstocks used—whether it's soy or other virgin oils, waste vegetable oils, animal fats, used cooking oil, or a combination. Plus, the map will include charts/graphs illustrating key metrics extracted from the data.
