WHO WE ARE

Carbon Capture Magazine is a news and data source designed specifically for companies and organizations advancing technologies that support the removal of carbon dioxide (CO₂) from all sources, including fossil fuel-based power plants, ethanol production plants and industrial processes, as well as directly from the atmosphere. Our online news source gathers top stories, research, data, trends and information on all aspects of CCS with the goal to help companies build knowledge, connect with others, and better understand the market and carbon utilization.

Carbon Capture Magazine sends a bi-weekly e-newsletter covering industry policies, news, and technologies that support carbon capture, storage and utilization, and features stories on the current and ongoing CCS efforts being undertaken to tackle the reduction of GHG emissions.

BONUS: Receive 1 year **FREE** medium rectangle ad on Carbon Capture Magazine's Directory homepage with the purchase of a display ad. (Size/pixels: 300 w x 250 h)

PUBLICATION INFORMATION

Publication (Trim) Size: 8.5" x 10.875"
Live Area: 8" x 10.375"
Paper Stock: 70-lb. gloss-coated guts, 80-lb. gloss-coated cover
Method of Printing: Web press, 150 lpi, process color
Binding: Saddle-Stitched
Applications: Publication is created in Adobe InDesign. PC files.
Ad Placement: Apart from Premium Ads, vertical ads are placed on the outside edge, horizontal ads are placed at the bottom of pages.
Proofs: We do not supply proofs
Storage of Advertisement: 24 months

ARTWORK SPECS

Color: CMYK/process colors only. **NO SPOT COLORS.**
All spot colors must be converted to CMYK. Color quality is not guaranteed if spot colors are used. No built-in black type.
Fonts: Outline or embed all fonts in the PDF
File Format: High-Res PDF
Resolution: All materials must be 300 dpi; submitted at 100% size.
Bleed: Refer to SIZES for the different bleed-size ads. A 1/4" bleed is required for each side that bleeds. **PLEASE CHECK THE LIVE AREA.**
Live Area: To prevent info being trimmed off, all text, logos, etc., must be 1/2" in from the edge of the ad. Registration marks preferred.
PDF Files: Save with all fonts and images embedded. Save without color profiles. Once PDF is created, please check the bleed – see "SIZES" for BLEED specifications. If submitted artwork does not meet specifications a new file will be requested.
Color Profiles: Whenever possible – do not embed or include color profiles.

CREATING ARTWORK

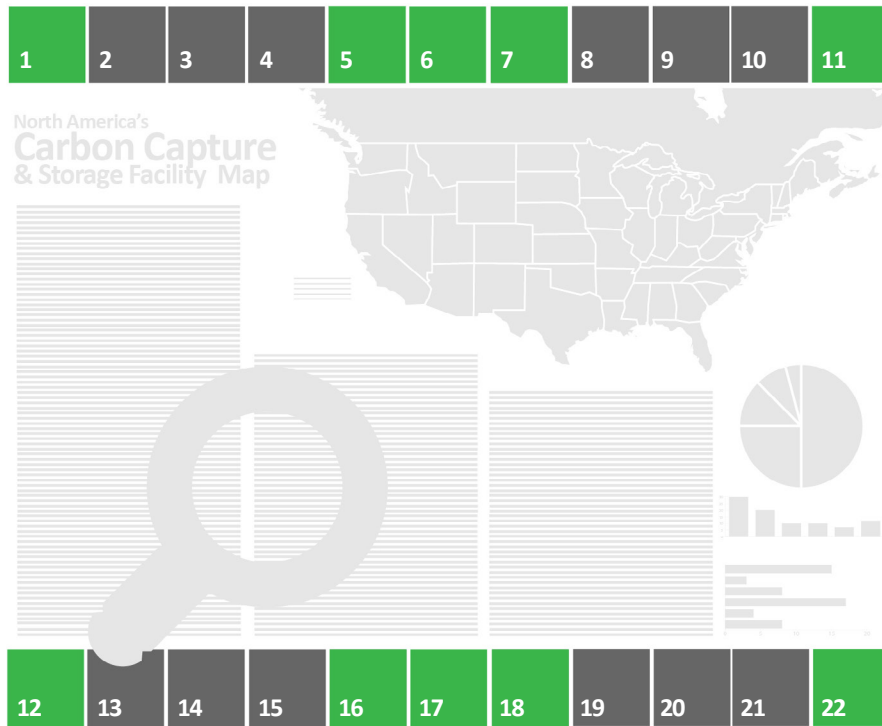

In-house Production: Carbon Capture Magazine will create advertisements for clients (3 proofs for free, a fee will be charged for additional proofs needed). The advertiser must submit ad copy, plus high-resolution logos and photos. Photos may be purchased for advertisement, but at the client's expense. Submission of materials should be completed at least one month in advance of print run. Call for applicable production fees.

Submitting Artwork

Email: artwork@bbiinternational.com
Call: 866-746-8385 for assistance

REGULATIONS

Agency Discounts: Due to the affordable rates offered by Carbon Capture Magazine, we do not offer agency discounts.
Invoices: Rendered at time of issue mailing.
Short Rates/Rebates: Advertisers will be short-rated if, within 12 months from the date of the first insertion, they do not use the amount of space upon which their billings have been based. Rates may be adjusted (lowered) during the course of an advertiser's insertion order agreement, if the advertiser has used sufficient additional space to warrant a lower rate than that at which their billing began.
Rate Protection: Rates are effective for all advertisers throughout the duration of this media kit. Rates will never increase during the term of an advertiser's billing agreement, unless the advertiser chooses to change the plan by, for example, increasing the size of an ad.
Publisher's Protective Clauses: Deliberate attempts to simulate editorial format in an advertisement is not permitted by Carbon Capture Magazine. The publisher reserves the right to insert the word "advertisement" when, in the publisher's opinion, an advertisement resembles editorial material. Liability for all content of advertisements printed (including text, representations, illustrations or any sketch, map, label, trademark or other copyrighted matter) will be assumed by advertisers and their agencies. The publisher reserves the right to reject any advertising that does not conform to publication standards. Carbon Capture Magazine is not liable for delays in delivery and/or non-delivery in the event of an Act of God, action by any governmental or quasi-governmental entity, fire, flood, insurrection, riot, explosion, embargo, strikes whether legal or illegal, labor or material shortage, transportation interruption of any kind, work slowdown, or any condition beyond the control of the publisher affecting production or delivery in any manner. Carbon Capture Magazine is not responsible for quality of reproduction when materials received do not conform to specifications or when materials are received beyond closing date.
Cancellations: No cancellations will be accepted after closing dates. Notification of cancellations prior to closing date should be in writing (email or fax acceptable).
Method of Distribution: U.S. Postal Service
Subscription Prices: Subscriptions to Carbon Capture Magazine are now free of charge to everyone with the exception of a shipping and handling fee for any country outside the United States. Subscriptions are available online at www.CarbonCaptureMagazine.com. Please contact our subscriptions department for subscription assistance at (866) 746-8385 or service@bbiinternational.com

Premium Positions indicated in Green

Mailed with Issue 2, 2025 of Carbon Capture Magazine

BONUS: Free 12-month online ad, on CarbonCaptureMagazine.com, with the purchase of a map print ad

Sent to 6,500 Facilities, Stakeholders and Attendees of Related Events.

Carbon Capture Magazine's 2026 North America's Carbon Capture and Storage Facility Map will identify facilities currently or planning to capture and/or store carbon in the U.S. and Canada. Color coded for quick reference, the map indicates yearly carbon captured or stored and future facilities looking to capture carbon. Listings include name of facility, city, state, feedstock and capacity.
